OVER 120 YEARS OF TRAMWAY EXCELLENCE

The venerable Peak Tram is, as most passengers agree, the only way to truly experience the beauty of Hong Kong's natural wonders. Tens of millions of people from every corner of the globe have taken the ride, which affords a uniquely spectacular perspective of the city.

Located also at the Garden Road Peak Tram Lower Terminus is The Peak Tram Historical Gallery. Open in September, 2007, The Peak Tram Historical Gallery is like a time tunnel with more than 200 memorabilia exhibited. Divided into 15 theme sections, it will take you back to Hong Kong in the 19th and 21st century. The first day of commercial operation on May 30th, 1888, attracted 600 passengers.

The Peak Tram Historical Gallery is a way of paying tribute to The Peak Tram, its heritage and the history of Hong Kong. Since 1888, The Peak Tram has served Hong Kong, quietly witnessing 120 years of the city's changes. The Gallery is a place that brings back many memories for local visitors and gives overseas visitors a glimpse of how the Pearl of the Orient has come to shine.
