As dusk falls, the shutters open at the Night Safari, welcoming you into a world of nocturnal creatures and their dimly-lit homes. Opened in 1994 and located next to the Singapore Zoo, the Night Safari is the world's first safari park for nocturnal animals. But it resembles a wildlife park more than an actual safari.

Your eyes will take a while to adjust to the darkness here, but once they do, you'll be greeted by over 2,500 resident animals from over 130 species - including many indigenous to the region, such as the endangered Asian elephant, Malayan tapir and Malayan tiger. The animals live in 35 hectares of dense rainforest. Friendlier creatures such as deer roam freely in the park while fiercer ones like leopards are kept behind barriers.

No visit is complete without enjoying the famous performance filled with humour, thrill, and surprises. Catch the talented troupe of tribal warriors as they thrill you with their fiery stunts in the Tumbuakar Performance and don't miss the must-see Creatures of the Night Show. This highly entertaining and interactive 20-minutes show highlights the abilities of some of the most fascinating nocturnal animals.
